EARSHAM PRIMARY ACADEMY

19th June 2026

Head of School

Thank you to all those who joined us for our annual Sports Day this week. Hopefully it was an enjoyable day for all who attended in the Summer sunshine. Congratulations to the winning house (Saturn) and to all the children who took part. It was lovely to see so much sportsmanship on show.

Mr Woodcraft

Willow Class

This week in Maths Year 1's have been learning about how to partition our tens and ones. Year 2's have been learning all about mass, volume and capacity. In English Year 2's have been looking at non-chronological reports and different types of sentences including commands and questions. We have continued our work on plants in Science, identifying and drawing different plants around our school and the local area. In RE we have learnt about the Hindu Creation story. We also had a lot of fun at Sports Day.

Maple Class

This week Maple Class have been working hard in PSHE lessons exploring, amongst other things, similarities and differences and the wide variety of things we have in common with one anothe. PE was focused on Sports Day practice with the children very much enjoying Sports Day on Thursday. In English, we completed our discussion texts about whether or not zoos should be closed and in Art children were busy making cards!

Silver Birch Class

This week, in Silver Birch Class, have been stepping back in time to Ancient Greece to explore one of history's most pivotal conflicts: The Battle of Marathon (490 BCE). We discovered that this famous event was much more than just a military battle. It was a fantastic tool for helping our students develop critical historical thinking, understand the origins of democracy, and discover the roots of a famous modern sporting tradition. During the lesson, we discovered that the Battle of Marathon took place in 490 BCE and was a military conflict where the underdog Athenian army decisively defeated the first Persian invasion of Greece. In our science topic on climate change, for this week's session, we have been focussing our attention on carbon. We learnt that carbon is a non-metallic chemical element that serves as the primary chemical building block for all known life on Earth.

Awards

GOOD NEWS STORY

Well done to William in Maple Class for receiving an award for most improved player at Bungay Football Club ⚽⭐
